DETAILED ACTION

Allowable Subject Matter

1. Claims 12-32 are allowed.
2. The following is an examiner's statement of reasons for allowance: Claim 12 is allowable over the prior art because of the apparatus with a handle portion including a first blade-engaging element, a swing arm including a second blade-engaging element, a back member including a third blade-engaging element, and when the swing arm is in the extended position the second and third blade-engaging elements are disposed on an arc of constant radius centered on the first blade-engaging element as set forth in the claims. Claims 14 and 29 are allowable over the prior art because of the apparatus including a handle portion with first and fourth blade-engaging elements, a swing arm with second and fifth blade-engaging elements, and a back member including third and sixth blade-engaging elements as set forth in the claims. None of the prior art cited discloses an apparatus that incorporates the use of a handle portion including a first blade-engaging element, a swing arm including a second blade-engaging element, a back member including a third blade-engaging element, and when the swing arm is in the extended position the second and third blade-engaging elements are disposed on an arc of constant radius centered on the first blade-engaging element or a handle portion with first and fourth blade-engaging elements, a swing arm with second and fifth blade-engaging elements, and a back member including third and sixth blade-engaging elements to allow for a saw blade to change positions. Therefore, in view of what has been stated above, the claims are allowable over the art of record.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
